

## Serie TG

- Motori monofase 2 poli 230V - 50Hz
- Coclee in lamiera zincata
- Ventole in alluminio a pale avanti
- Temperatura aria -10° +60°C
- Campi di impiego: termoconvettori, forni, refrigeratori, umidificatori, condizionatori, distributori automatici

| Articolo | W in | Portata mc/h | Pressione Pa | n. ventole | Posizione motore | Dimensioni ventola Ø x lunghezza | Lunghezza totale ventola/e + motore |        |
|----------|------|--------------|--------------|------------|------------------|----------------------------------|-------------------------------------|--------|
| TGA6090  | 19   | 68           | 43           | 1          |                  | 60 x 90 mm                       | 159 mm                              |        |
